## Gravity + Minerals Technology

Blue Mounts Gravity technology is an advanced purification system for basic water purification.

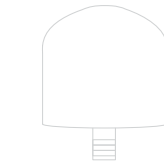

A non-electric water purifier comes with Ceramic Filter + Activated Carbon + Sediment Cloth Filter + pH Filter + Minerals. The water is filtered from suspended and chemical impurities, sediments and microbes to a certain level.

This does not use any chemicals to purify your water and yet ensures it's safe and healthy for consumption.

## Silver Impregnated Carbon

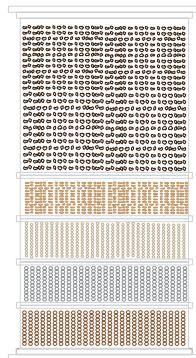

Blue Mount introduces Silver Impregnated Carbon filter with Ceramic Filter as disinfectant, more effective in controlling growth of bacteria and other micro-organisms.

Due to its antimicrobial and antiseptic properties silver impregnated carbon is used as absorbent in domestic water purifier. It removes bacteria & viruses, enhances the taste of water & makes drinking water crystal clear.

#### Ceramic Filter

Removes dirt, debris, and bacteria out of water.

#### Activated Carbon

Removes chlorine, organic chemicals, unpleasant odors & colors and improve taste of water.

#### Sediment Cloth Filter

Removes dirt, sediment and carbon particles

#### Mineral Stone

Continuously release over 20 types of minerals like calcium, potassium, magnesium, iron, zinc and other trace minerals.

#### Antibacterial Ceramic Ball

Antibacterial ceramic ball can get rid of water's bad smells and prevent bacteria's creation.

#### Zeolite Ceramic Ball

Therefore Zeolite balls absorb free radicals and viral particles.

#### Far Infrared Ceramic Ball

These balls emit far infrared rays, produce micro-cluster water, strengthening the body's resistance to infectious diseases
